American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

ANICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and engineer in the British army, it is scarcely necessary to say that the Paper is recommended by Mr. Ken. Lawyer of the N. Y. Merchants' Exchange, Mr. Lyman of the New York Clearing House, and Meade Brothers, Extensive and skillful photographers, 785 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$10 for 1000 sheets.
Bill and Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$5 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

All Sale and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it—the properties inserted in the pulp being a preventive. In all the West Indies, Cuba, the West Indies, and the Central American States, the public records can be kept over 20 years, written on the ordinary paper, while the ofis and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feed on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

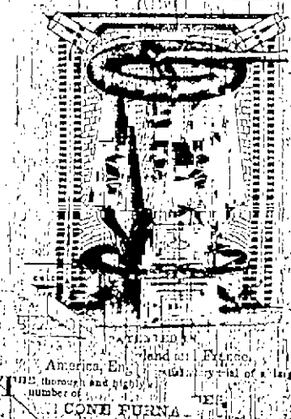
Chilson's New Cone Furnace.



THE thorough and highly successful operation of this valuable Furnace, in the numerous instances in which it has been introduced, has induced the proprietor to offer it to the public as the best Furnace now known for the purpose of heating dwelling houses, churches, school houses, &c. Its construction is such that it will keep a fire for 24 hours without replenishing with fuel, and will consume its own smoke, thereby saving fuel, and rendering it a very economical Furnace. Not being subject to the objections which exist in other Furnaces, it is considered by many who have used it, to be the most perfect Furnace now in use. Its capacity for heating is unsurpassed by any other Furnace, and it will be found to be a great saving of fuel, as it requires but little attention, and is not liable to get out of order. Its durability and ease of management will be satisfactorily tested by the fact that over 1,000 are now in use, and not one has been returned. Its simplicity and cheapness will also recommend it to all who are in want of a Furnace. Two Portable Furnaces, and Two Sectional Furnaces, suitable for Churches, Halls, Stores, Manufactories, Dwellings, &c., will be sold at a low price. Also, Furnace Pipe, Elbows, Registers, Ventilators, &c., &c., constantly on hand. Persons wishing to have their houses warmed and ventilated on the most approved principles, are invited to call and examine the Furnace in operation, at the Warehouse of the subscriber, No. 127 Commercial-st., Boston, where all other information will be given.

The new Policy of Slavery—The Attempt to force the Banking Question upon the Republican Party.

The Richmond Enquirer opposes the demands of the more reckless pro-slavery men that Walker's recent course shall be repudiated, and that a slavery constitution for Kansas, if framed, shall be presented to Congress and adopted without reference to the people. The Enquirer opposes this as a matter of policy—as a suicidal course for slavery and the democratic party. It considers that slavery has placed itself on a firm foundation by the election of Buchanan, and the recent construction of the Supreme Court, and evidently thinks it can stand the loss of Kansas, as long as the democratic party sustains the new constitutional doctrines. It argues against any further attempts to outrage the public sentiment of the people of Kansas—because, in so doing, it has a wholesome fear of retribution from the North. Slavery has been otherwise fortified and rendered impregnable, in the view of the Enquirer.

We copy some sentences from a recent article in that paper.

Now, as Mr. Wise, can neither be assailed as a National Democrat or a steadfast friend of the South, what remains for the extremists and malcontents to do? Why, they would, we suppose, carry out a fit republic of their own—a republic of the cotton-growing States; *for there is among them an obvious disposition to cut Virginia and all the other border States*, although Virginia has more slaves than any other State in the Union; and although she and the other border States, by their vote, in the recent Presidential election showed themselves as true to the rights of the South as the growers of rice, of sugar, or of cotton. Not only did these States show themselves true to the institution of Slavery, but, crossing the line, and we find forty hundred miles or more north of it, our neighbors were found on the subject. The case of Slavery is gaining ground daily in Europe and America. The debates in the British Parliament prove this. The Coolie and African immigration and apprentice codes of France and England prove this. The recent elections at the North, too, display applications in a more hand condition. The present monetary crisis—unless to free Abolitionists harmless to one's sleep—will give the monster the *coup de grace*.

It is observable that the Enquirer defends itself and the administration as being altogether as loyal to slavery as the more southern section of the democracy. It deprecates any disposition to cut off Virginia from the cotton States. Virginia is not only "the mother of States and of Statesmen," but the mother of slavery, and she will defend it as strongly as South Carolina—but her politicians see plainly that it will not do to outrage the free sentiment of the North just at present. If the Black Republican party can be defeated or divided, by *some new issue upon currency questions*, then it may be safe to go on with slavery encroachments and slavery outrages. The closing sentence of the above paragraph shows what are the hopes of the pro-slavery democracy in this respect. These hopes, however, are destined to disappointment, as we believe. Any questions of currency or of bank reform should be, and we believe will be discussed and determined independent of party relations. The policy of the country in regard to a banking system can never be properly arranged if the question is dragged into the arena of party politics. The slaveholding democracy, having its head quarters at Washington, is now attempting to force an issue with the Republican party upon these banking questions. But the Republican party will recognize no such issue. Republican papers will not discuss the question as a party question at all—and it is best for the country that it should not be thus discussed. The bank controversy twenty years ago, between political parties did not result in establishing any safer or sounder currency for the country, *although the democratic party then prevailed in the elections*—and another partisan contest at the present time upon questions of currency would result in no practical change. The democrats denounced paper currency in 1835 and 1837—but democratic Legislatures then *chartered as many banks as Whig Legislatures*.—The cry against banks was simply for party purposes, and heralded no actual reform. It would be so now, in a partisan contest. If we would restrict our paper currency—supersede small bills by specie—or give a firmer basis to our banks,—it must be done independent of party.

"From our heart we are glad our Republican friends have triumphed in Massachusetts."—*People's Organ, Bath.*

We are glad to see that our Democratic brother is not entirely given over to hardness of heart and blindness of mind.

THE REVOLT IN INDIA.—In the course of a recent sermon, the Rev. A. L. Ritchie of Dundee, Scotland, mentioned, as illustrations of the extent of the bereavements caused by the Indian mutiny, that a gentleman in that country had lost twenty-two relatives in India within six weeks; and that out of thirteen of a family party which met last year at St. Andrews, only one is now living, twelve having cut up in India and fallen victims to the mutiny!

A Lawyer in one of the Western counties lately threw a cane at another's head. The court required him to apologize for it. He did so, and replied: "while I am about it, I may as well apologize beforehand for throwing another cane at him the first chance I get."

LOCAL AND MAINE NEWS.

[Reported for the Whig & Courier.]

Supreme Judicial Court.

CUTTING, J., presiding.

November 6th.

Theophilus Cushing et al. vs. Matthias E. Rice et al. In this case, which has occupied the whole week. Plffs. allege that in the Spring of 1854, they purchased of Dfts. through their agents Bragg & Moor, some two and a half millions feet of pine and spruce logs, cut on Township A, in the winter of 1853–4; that Dfts warranted logs to hold out in number of pieces and feet as per scale bill of Mark Webster, who scaled on the landing, and that the lumber was well marked and driven clean to North Twin Dam, where same was to be delivered by Dfts. Plffs. put in scale bills of Webster, bill of sale from Haynes & Rice to Bragg & Moor, and from Bragg & Moor to Plffs., and proved that $21,000 was paid for the lumber; also boom books to show amount scaled of these marks from Penobscot Boom 1854–5–6, when boom was cleared, and claimed the amount of deficiency this scale showed. Fraud or mistake on the part of the scaler was also alleged.

Dfts. alleged that the logs were sold to Bragg & Moor; and not to Plffs., with whom they claimed to have had no privity; that the scale was based on Webster's wood scale, that there was no warranty, and that Bragg & Moor took the logs on their own risk; that the 2538 clapboard cuts were sold at the estimate of Batchelder, who got them in; that the purchasers had the knowledge, or means of knowledge, of what they bought; that sale was in good faith, logs well scaled, marked and driven to North Twin Dam.

The case went to the jury this evening. It was argued by Ingersoll for Plffs. and Sanborn for Dfts.

Smith, first mate; Davis Burns, seaman; Quinton D. Smith, second mate; and Daniel R. Humphrey, master. The Court assigned them Counsel, and the trial will take place to-day.

We regret to learn that the Grocer's Bank, of this city, has been stricken off at the Suffolk.

The ship Dalit Havon, Capt. Wm. A. Cooper, of this city, arrived at Cowes from the Chincha Islands Oct. 23d, and was ordered to Rotterdam.

East Maine Conference Seminary.—We understand from Rev. A. Prince of Searsport, the indefatigable agent of this institution, that the prospects look somewhat brighter. It is believed that by contributions they will be able to pay off the debt of the Seminary this winter, and that the prospect is fair that a fund will be raised sufficient to warrant its resumption another year. The enterprise is a good one, and liberal men of all denominations cannot do better than to give it a helping hand. This Seminary enjoyed an enviable reputation when in operation and is sadly very much felt in the eastern section of the State.

The shock of an earthquake was felt very distinctly by people in this city, on the morning of the 31st at twenty minutes before five o'clock. It was accompanied by a loud rumbling and heavy jar that rattled the doors and windows.—*Del. and Free Press.*

The Anson Advocate says that bears are doing much mischief in Embden and other portions of Somerset county. They are said to be extremely partial to mutton.

We learn that Rev. L. Bingman has tendered his resignation as pastor of the First Baptist church in Chinn, to take effect at the close of the year.

Rev. S. W. Bonham, late of Brighton, has accepted a call to the pastorate of the Worthen St. Baptist church, Lowell, Mass.

Death of Mr. Hoag.—Edward G. Hoag, whose's decease we announced last week, died on Friday morning, at the age of 37 years.—He was buried with Masonic ceremonies, by Waterville Lodge on Sunday afternoon. In this place as teasher of Ticonic Bank, for a few years past, he has secured the unlimited confidence of the ease of business men with whom he has been associated; but it was in the familiar circle of friendship that the best gems of his character were disclosed.—*Mail.*

A new Bapt st church has been recognized in Mechanic Falls. It numbers forty-two members.

Henry Wilbur, the man who shot his son while on a sick bed, in the town of Rangeley, Franklin county, a week or two since, has been committed for the January Sessions.

Moxie Burn.—Two sons of Mr. J. C. Stewart, Ribridge and Belcher, of this town, killed two bears last week, up in No. 4, Stewart plantation, so called. One of them was evidently an "old settler," a monster of a fellow, savage and tough; the other a full grown cub, a fine specimen of the *brain* family.—*Farmington Chronicle.*

One of the Nimrods.—Mr. Horace H. Pitcher, of this city, has just returned from an expedition to the northern forests of Maine. The trophies, (there were two in the party,) were eight moose, any quantity of deer and trout, *ad libitum*. Mr. H. L. Leonard, of Bangor, was the associate of Mr. Pitcher in the expedition.—*Belfast Journal.*

Potatoes were selling in Augusta last week at forty cents a bushel.

The Kennebec Journal says that workmen are busily engaged on the walls of the new jail in that city. It is already laid four or five feet above the surface of the ground.

Burglaries and Larcenies.—One night last week the store of James Gammons at Belfast, was broken open by boring through the back door directly under the hasp and rising it. A roll of broad cloth and several other articles, as well as what money had been taken in the store for several days, were stolen.

On Sunday night two large bee hives belonging to Mr. Clark M. Marden of Swanville, were stolen from his bee house—also a few nights previous, about 20 bushels of grain, principally wheat, was stolen from the granary of Mr. Hasan McKeen, in the same town.—*Belfast Age.*

Mr. Rufus Yeaton of Alfred, recently slaughtered a hog, sixteen months and ten days old, that weighed *six hundred and fifteen pounds*. He thinks this the largest hog of his age, that has been raised in the county for many years.

On Sunday afternoon, the 12th inst., the dwelling house of Joseph V. Blackstone, in the northeast part of Nobleboro', was destroyed by fire. A considerable quantity of corn, grain and potatoes were destroyed, together with a portion of the furniture. Loss about $1300. Insured $700 at the Monmouth M. F. Insurance Office.

We learn that the proprietors of township No. 8, in Piscataquis county, or "Howard," intend to commence a system of manufacturing upon one of their privileges on Wilson stream.

James E. Mills, of this city, the assistant of Prof. Agassiz, has returned from his scientific examination of the ocean productions at Grand Menan, where he has spent most of the summer. He will pursue similar examinations, during the winter in Florida.

Universalist Conference at Orono.—There will be a Universalist Conference held at Orono on Tuesday and Wednesday the 24th and 25th of this month. On Wednesday, Ordination will be conferred upon Rev. Lafayette Harlow who has lately been called to the Pastorate of the Universalist Society at Orono.

Commissioners of the Reform School.—The Governor and Council have appointed P. B. Mills, Esq., of Bangor, one of the Commissioners of the Reform School and he has entered upon the discharge of his duties. The Board consists of the following gentlemen:—Hon. Manasseh Smith, President; Hon. J. C. Noyes, Treasurer; Elias Craig, Esq., Hon. Seth Seaman and P. B. Mills, Esq.—*Kenn. Jour.*

A Bit of a Hoax.—The item in our paper last week in relation to the pot of coin being found by Capt. Isaac Carver of Searsport, turns out to be a hoax. The letter containing the account purported to come from Capt. Carver, and the hand writing resembled his. It was a forgery.—*Belfast Age.*

Infant Found. The body of an infant was found yesterday in a house at North End, occupied by Joseph Clark. The body was found in a tub under the chamber floor. The tub was partly filled with water.—*Eastport Sentinel.*

In the list of officers, &c., of the Bangor Choral Society, the name of J. M. Tracey, Pianist, was accidentally omitted.

Stolen Property. We are informed that the goods stolen from Mr. Charles Poole, on Monday night last, have been discovered. It appears that the robbers stowed them away in the attic, with the intention probably of taking them away at another time.—*Bath Tribune.*

Apparently True. There are many in New York and Boston who will be inclined to think that there is rather more foundation to this following, from the New York Herald, than is generally the case with the off-hand opinions of that paper:

"The Westerners men have got our goods, said they have got their own corn; they will neither send us the money which is due for the former, nor any decent proportion of the latter. The money they have invested for the most part in land speculations, which will shortly crumble to the ground with a terrible crash; the corn, they coolly tell us—while withholding payment for what they owe—they are holding for higher prices. The same thing is being done at the South, where the planters, still rejoicing in last year's fatness, prefer to keep their creditors here, and to hold on to their cotton, rather than sell it at present prices."

Personal.—The San Francisco News Letter, noticing the departure of Col. Fremont, says: "Col. Fremont leaves our state by the present outgoing mail steamer, the Golden Gate, *en route* for the East and Europe, whither he proceeds with the now complete survey of his vast dominion, Las Mariposas. About fifty tons of auriferous quartz, from the various veins, yielding with the present imperfect methods of reduction, $50 and upward per ton, have been shipped in order that the *savans* of Europe may confirm, by the severity of their tests, its unquestionable richness. Col. Fremont has by his brief sojourn among us, discharged every lien and countervailing claim against the property incurred in its development, and is proceeding to Europe to perfect arrangements by which the construction of the extensive canal for mining and irrigating purposes can more fully exhibit this inexhaustible richness of the Mariposas."

Gen. George P. Morris, the Bersanger of America, has returned from his southern excursion with health completely restored.

Bayard Taylor's wedding-day was appointed for Tuesday of last week at Gotha Germany.

Charles A. Sumner, a relative of Senator Sumner, has assumed the editorial control of the Sacramento Sentinel.

A Splendid Present.—We saw, a day or two since, a splendid gold medal presented by the British government to Capt. Hildreth of the American ship West Wind. It was very heavy, and had the head of Victoria on one side, and on the other, enclosed in a beautiful wreath, the inscription—the "British government to Capt. Jerome B. Hildrith of the American ship West Wind, for saving the crew of the British barque Tatton, 1856." It is a splendid present and one which will be highly prized by the recipient for its intrinsic value, as well as of the circumstances under which it was presented.—*Mail.*

California. We are indebted to Messrs. Reynolds & Lane of San Francisco, Cal., for late papers. Also to Mr. C. P. Kimball for similar favors.

We extract from them the following items:

Marysville and Benicia Railroad. The Marysville Express is informed that $80,000 worth of stock has been subscribed in that city, by different individuals, within the last few days, to the Marysville and Benicia Rail road. It is the intention of the company to have a new survey of the route made, in the course of two weeks. Solano county has subscribed by a vote of her citizens, $200,000, to be invested in the same enterprise.

The next State Fair is to be held at Marysville.

Hon. Hugh C. Murray, Chief Justice of the Supreme Court of California, died, at his residence in Sacramento, on Sept. 18th. His disease was consumption. He was 38 years of age.

Extraordinary Colt. The most remarkable animal of which we have ever had any knowledge, says the Stockton Republican, is now in this city, and will be exhibited for a prize at the Fair. It is a mare colt, of common American stock, two years old in May last, sixteen hands and two inches high, and weighs 1216 pounds. The colt was raised on the Calaveras, a few miles from this city. We did not learn the owner's name.

Fruit. Mariposa county is not backward in producing fruit, as she has about 7,000 fruit trees, 10,000 grape vines, 20,000 strawberry plants, 1,000 currants, and 750 raspberry bushes.

Petrifaction. M. W. B. William, brought with him, yesterday, from Willow Springs, Amador county, a most beautiful specimen of petrified oak, weighing upwards of one hundred and fifty pounds. The petrifaction was met with on the Union claim, and is intended for the Odd Fellow's Museum, at San Francisco.

An effort is being made to secure the construction of a wagon road from Marysville to Clear Lake, a distance of seventy-five miles. It is said to be through an excellent farming country, in which warm springs of sulphur and soda are abundant.

An artesian well had been sunk 623 fee, when they struck a stream of clear, pure water, capable of furnishing water in sufficient quantity to supply the city of Stockton.

Too Old to Live. The Pacific Sentinel says that an Indian named Pedro, died at Santa Cruz on the 7th September, aged 110 years. In 1784 when the Mission there was founded, Pedro was a very old man, as was known to many people now residing at Santa Cruz.

The Sacramento and Yolo Bridge. Mr. Leonard, the contractor for the construction of the work, arrived from San Francisco yesterday morning, and informs us that every arrangement has been effected for the rapid prosecution of this enterprise, and that there will be no unnecessary delay until the undertaking shall be completed and a beautiful bridge span the Sacramento river, from this city to the town of Washington, thus bringing in closer contiguity, the rich agricultural counties of the west with the capital of the State. The bridge is to be eight hundred feet long, built on five piers to be supported by 1000 piles, which will be at least twelve inches in diameter and to be driven thirty feet to the firm, solid bed of the river. The contractor feels satisfied that if the rainy season does not set in earlier than usual the work will be finished by the 15th day of January next.—*Sacramento Journal.*

The papers are full of accounts of murders, robberies, &c., and all sorts of rascality appears to be carried on openly, almost. The Sabbath is used as a day for ball fighting, horse-racing, gambling, &c., in some localities.

The American Eagle.—This is the greatest bird that has ever spread his wings over this great and glorious country. The place where he builds his nest is called an eyrie, away up on the precipices where the foot of man can't come, though perhaps a boy's might. The eagle is a facetious fellow, and dits on the tops of the cliffs and looks sharp for plunder. He gets tired of waiting, and then he starts out into the blue expansive heavens, and soars all around upon his opinions over the land and the water, to see what he can pounce down upon. But though he is called a very cruel bird, he always preys before eating. He eats his victuals raw, which is an unfavorable habit, but it is supposed he eats it so because he likes to. He is a very courageous bird, and will fight like blazes for his young, and steal chickens wherever he can see them. He has been known to carry off a young baby to his nest which seems to show that eagles love little children. He is a bird of great talons, and is much respected by birds of the feathered tribe that are afraid of him. He is a great study for artists, but appears to beat advantage on the ten dollar gold piece, and fifty cent pieces, and pretty well on the dimes, as he sits gathering up his thunderbolts under him, as if he was in a great hurry to be off. He has lately broke out on the new cent, and seems as if in his hurry he had dropped all his thunder.—The American Eagle is the great emblem of peace and the inspiration of Fourth of July. He soars through the realms of the poet's fancy, and when his beak on the highest peak of the orator's imagination. He is in the mouth of every politician, so to speak. He is said by them to stand on the Rocky Mountains, and to dip his bill in the Atlantic, while his tail casts a shadow on the Pacific coast. This is all gammon. There never was one more than eight feet long from the tip of one wing to the tip of t'other. His angry screams is heard ever so far, and he don't care a feather for any body. Take him every way, he is an immense fowl, and his march is over the mounting wave, with the star spangled banner in his hand, whistling Yankee Doodle.—*The Partington.*

Gen. Scott's Rejoinder to Pillow.—Gen. Scott publishes a second card in reply to the further allegations of General Pillow, in reference to the Santa Ana bribe. He reiterates his former declarations, and in allusion to the quoted statements of Generals Quitman and Shields, he remarks:

"Suffice it to say, in this connection, that neither of the statements produced by Gen. Pillow, with gravity, contradicts me in the least on the only point in question, viz: the $10,000 bribe; for neither of those Generals pretend to know to whom the bribe was paid, nor did any other American ever hear me whisper the name or names of the receivers, until confidently disclosed on the final settlement, at the War office, of my secret disbursements."

Gen. Scott complains of the conduct of President Pierce in allowing, at the instance of a "malignant Secretary," the publication of the secret disbursements in the Mexican war, and says that already in consequence of this publication, five highly respectable residents of Mexico—utterly guiltless of bribery, but liable to suspicion under these designations—have, through this distinguished channel, made application to him for exoneration. He then reviews briefly, but severely, his treatment at the hands of Polk's administration.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From Texas.

WASHINGTON, Nov. 6.

The southern mail from all points is late and has been received.

The dates from Galveston are to the 27th ult.

The crops in San Augustine and Sabine counties are excellent. The cotton crop was a fair one than usual.

Below, several vessels were loading with cotton, to go direct to European ports.

A careful estimate of the cane crops in Brazoria county shows that 3085 hhds. of sugar and 6000 bbls. of molasses have been manufactured from it. The cotton promises more than the average.

Houston, Oct. 28.—Acres of cotton bales are piled up in this town, and the warehouses are filled to overflowing. The general disposition is to ship it direct to Liverpool.

A company of 75 rangers, ordered out by the Governor, had passed through Antonio.

New York Election.

ALBANY, N. Y., Nov. 6

The Evening Journal's footing gives the State to the democrats by about 10,000 majority. It claims 16 Senators to 13 democrats, 2 Americans and 1 independent. They make the Assembly stand 67 Republicans, including nine Americans, and 61 democrats.

New York Markets.

NEW YORK, Nov. 6.

Flour dull and heavy—Common to straight State 4,85 a 4,90; extra State 5,10 a 5,20; common to good Ohio 5,30 a 5,65; extra Genesee 5,50 a 7,00. Southern heavy and drooping—sales to good 5,20 a 6,40; fancy and extra 6,50 a 7,00. Canadian—extra 5,15 a 5,75.

Wheat, Spring lower, and generally heavy. Corn—mixed Western 75 a 76.

Pork heavy—mess 19,62; prime 16,00.

Beef heavy—country mess 9,00 a 10,00; prime 6,00 a 7,00; re-packed Chicago 14,00.

Sugar steady.

Freights to Liverpool—cotton 5-32d; flour 2s a 3s; grain 3d in bulk and bag.

Arrocoock.—The "tables are turned." Not many years ago some of our Kennebec drovers used to collect droves of cattle and drive them into Aroostook County and into the province of New Brunswick. Now drovers go into the Aroostook County and province of New Brunswick, adjoining, collect droves of cattle and sheep, and bring them to Kennebec for sale. Then, our drovers were under the necessity of *"putting them through the woods."* They had no roads and had to camp out while on the way. Now, our drovers have good roads to travel, plenty of fields of grass to bait their cattle in, and first rate accommodations of tavern or farm houses to put up in at night.

One of our neighbors, Braddock W. Chandler, of Winthrop, has just returned from Aroostook with the third drove of cattle he has brought from there since July. He brought this last large flock of sheep. Sheep brought from that section, we notice, are all of the long wool variety.

Sales of cattle, at present, are rather slow, but there is more hay in Kennebec than cattle to eat it, and here is a good chance for those who wish to supply themselves with stores.—*Maine Farmer.*

TERRIBLE SHIPMENTS FROM CALIFORNIA.—The San Francisco Herald of October 6, says that the gold shipped from that port by steamers during the previous nine months amounted to $32,063,350, of which $6,604,623 was kept to England, $324,925 to New Grenada, and the remainder to New York. The amount exported, at a similar period in 1856, was $36,134,009 14; showing a falling off in 1857 of $4,070,355 24.

The shipment by sailing vessels during the same time reached $3,399,060 the bulk of which went to China.

USE.—In looking over the schedules of articles to be presented to the different Indian tribes, for which the Secretary of the Interior invites proposals, we observe the item "*six hundred dozen scalping knives.*" Our hand went up involuntarily to the place where the hair ought to be.—*Butler County, Ohio, Telegraph.*

P. S.

A letter from Rev. Charles Hibbard, missionary in Burmah, to his father, Joseph Robinson, Esq., of this city, has been handed to us for publication, from which we make the following extracts.—Providence Journal.

NAWROW, Maulmain, June 6, 1855.

Dear Father—Will you kindly say to Mr. Davis that Mrs. Hibbard and myself, and indeed I might add all who came out with us, feel very grateful for the box of Pain Killer he gave us when we left our native land for Burmah. I have used it for cramps, colds, violent internal pains, summer complaints, burns, bruises, and for the sting of scorpions with uniform success. The only severe spasm of the stomach which Mrs. Hibbard has had in Burmah was instantly relieved by the Pain Killer. We always keep it where we can put our hands on it in the dark, if need be. Although I took Mr. Nesbitt's box when he returned to America, yet it is all gone but three or four bottles, and that would have been gone long ago had I not refused to part with it. The Karens are beginning to learn its value, and call for it, but I have to deny them, except in cases, for we could not think of being without it.

CASE OF ASTHMA.

The following letter, from Hon. Myron Lawrence, of Belchertown, is valuable testimony in favor of the Oxygenated Bitters:

BELCHERTOWN, March 10, 1856.

Dr. Green—I take great pleasure in informing you of the results of the Oxygenated Bitters you had the kindness to send me. For nearly two years I had suffered with Bronchial Asthma. I was compelled to sit up one-third of the night, without going to bed at all, and the rest of the time my sleep was interrupted by violent fits of coughing, and great difficulty in breathing. In all my attendance upon our courts, I never went to bed in Northampton, for twenty years, but twice, and then was compelled to get up. Now I lie in bed without difficulty, and sleep profoundly. I took your medicine according to directions. The violent symptoms ceased, and by a short and perseverance a the use of the remedy has removed all the troublesome consequences. The value of such a remedy is incalculable. Respectfully yours,

MYRON LAWRENCE.

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and will command it in every kind. Some say it is magic, etc. Of course they assign any thing but the real and philosophical reasons.—Inflammatory Rheumatism, Gout, Piles, Burns, Piles, Neuralgia, Salt Rheum, Felons, Scalds, Eruptions of the skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frost-bites, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Toothing children have never OFTEN cured in from 5 minutes to a few days simply by the inhalation. Not any have used this oil without deriving from it special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily.

Large Bottles Ten Times the Cheapest.

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents residing among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts a car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground, within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Cash or cash bo' recommended with a weekly supply on favorable terms.

Samples may be seen at the Store of JOHN McLAUGHLIN, No. 40 West Market Place, where it is kept for sale,

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) and 25 years Medical Practice in Great Britain.

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Lost of Vitality, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effects is almost instantly felt, and it will doubtless at once supercede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

Dr. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of Humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded by *mail* free of Postage, to any part of the country. Address; Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 158 Grand-St., New York, Sole Agents for the United States and Canada.

THE LUXURY AND PROFIT OF

HONEY-MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same, in connection with the Day Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, City swarms of bees, with the new hives.

Alpine Hair Balm

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color, without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Baldness have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is smoothing and, emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine any hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the dead hair and a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube; through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

DR. PETTIT'S

CANKER BALSAM!

To be Valued needs but to be Known.

It is its own BEST RECOMMENDATION

But a short time since we were talking with an agent who had formerly sold but little, but had now sold a host. He informed me that it had cured his

WIFE'S SORE BREAST,

After which others had tried it, and

EVERYBODY LIKED IT.

A Carpenter, in Camden, Maine, afflicted with

tried various remedies, had recourse to physicians, but obtained no relief.

His mouth was one complete CANKER SORE. The gums swollen and affected TO THE POINT OF SUPPURATION, and CLEAVING OFF FROM THE TEETH.

A perfect cure was effected by ONE BOTTLE of

SUGAR COATED PILLS

Prepared and put up by the

New York College of Health.

The most celebrated Medicine in the World, *Recommended by the principal Physicians in all our Cities, and by all who have encountered with their worst foe the smallest the darkest.*

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR. SMITH'S SUGAR COATED PILLS have saved my life.

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested, and many eminent Physicians in the United States use them in their practice.

Dr. J. M. STURTEVANT, of Lowell, Mass., a practical physician, says "I consider the Sugar Coated Improved Indian Vegetable Pills, as an excellent medicine, and use them in my practice."

Dr. McVICAR, of Boonville, Oneida Co., N. Y., says "Send to your Agent and I will be there an excellent Pill, and use them in my practice."

If the Blood becomes impure, it is owing to stoppage of the natural drains of the system, viz: of the bowels—the lungs, kidneys, and skin. The blood and intestines must relieve themselves of all their worn out parts and poisonous secretions, which must go through the channels that nature has designed.

Dr. Smith's Sugar Coated Pills

Possess this quality, to the fullest extent.

Dr. Wesley Grindle's CELEBRATED MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also an effectual cure for Scrofula, Dyspepsia, Obstinate Coughs, Irregular, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has conquered more hopeless human suffering, than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known. The most eminent physicians have been forced to acknowledge that it bears down consumption, and they now use it in their practice as a standard remedy.

The life to remedy equal to it in building up a system, that, under the influence of warring diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to renew the blood, correct the Vitiated Fluids, and arrest the deposit of tubercle in the lungs, and it is as safe as it is certain in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly, not neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease, and when this is done, the powers assimilate a deposit in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving, perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of a whole lung and sound health. But suppose this disease is not arrested at this early stage. The obstructed tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, the result is a cavity is formed which enlarges and decomposes, and death follows the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the fortified matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or what is more common, when it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, organized new action, and finally compensates for what has been lost.

Prices—One bottle, $1,00; three bottles, ordered at one time, $3,00; half dozen, $4,00; one dozen, or any number greater, at the rate of $3,00 a box.

The postage in the United States not over 3000 miles, is 8 cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1836.)

76 State Street, opposite Milk-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in *Great Britain, France*, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

As this Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that mine is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, are full absolutes of Patents granted in the United States and Europe, render him able to ascertain, question, one pound of this coffee, equal to 16 lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and is recommended as the best and most approved mixture for use in coffee.

TARAXACUM, or *Prepared Dandelion*.—This article is prepared and roasted at our mills, and is extensively used by Family Grocers generally in this country and bearing our trade mark. In *grinding coffee*, may be rolled into fine article. The proportion is two to one of coffee. The price is 25 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by confidential.

The medical properties of Dandelion are well known, and help to high estimation for coffee. This being a preparation of the root, in all its medicinal virtues, retained, can be found cheap and economical as a family medicine, and the sound of which being nearly equal to pounds of coffee. It is prescribed by many of our most eminent physicians, to invalids, children and nursing mothers as a nutritious beverage, and as a remedy for dyspepsia, bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Christian Coffee"—as there are many imitations of the so-called Taraxacum in the market.

To Grocers and Dealers a liberal discount will be made, enabling them to supply the consumer at the same low rates.

TO CASH PURCHASERS—In order to secure large sales at a small profit, we offer inducements which cannot be adhered to by those who do business on the credit system, and confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
